Summary

Product Designer with front-end expertise (React, Shopify, Webflow). Designs user-centered UI/UX for web and SaaS products, from user flows and wireframes to high-fidelity UI and coded prototypes. Focused on interaction design, design systems, usability testing, and web accessibility (WCAG). Leverages AI-assisted workflows to accelerate research, ideation, and documentation while maintaining a user-centered design approach. Comfortable operating across design and engineering in fast-moving startup environments.

Experience

Product Designer & Front-End Developer

2020 - Present

Freelance | *Remote*

- Designed and shipped 50 plus web and product experiences across SaaS, e-commerce, and consumer platforms.
- Led end-to-end product design from user flows and wireframes to high-fidelity UI and product implementation.
- Improved conversion rates and user engagement through UX optimization and iterative usability testing.
- Built responsive, production-ready interfaces using Shopify (Liquid), React, and Webflow.
- Created scalable design systems to ensure consistency across features and reduce development time.
- Reduced design-to-development friction by delivering interactive coded prototypes.

Court Processing Specialist III

2025 - 2026

Marin County Superior Court | *San Rafael, CA*

- Managed high-volume, detail-critical workflows requiring accuracy and compliance.
- Collaborated across teams to resolve data and process inconsistencies.

UI/UX Designer & Analyst

2022 - 2023

FitMatch.ai | *Remote*

- Designed and delivered 5 plus SaaS products across retail and healthcare domains.
- Translated complex user workflows into intuitive, scalable interfaces.
- Collaborated closely with engineering to ship production-ready features.
- Conducted usability testing and iterated on designs based on user feedback.
- Contributed to design system development to improve consistency and scalability.

Front-End Web Developer

2018 - 2019

MarekIT | *Boston, MA*

- Developed responsive web applications using React, HTML5, CSS3, and PHP.
- Built and maintained CMS-integrated client websites.
